THE CHENG-TU RIOTS.

United States Government Will Make Independent Investigation.

WASHINGTON, D. C., September 6 .-The United States Government has decided to enter forthwith upon an independent investigation of the Cheng-Tu riots, with the co-operation of Chinese representatives. As at first arranged, the inquiry was to have been made in cooperation with England, but there has been a change of plan within the past few days, occasioned partly by the fact that the British Consul at Hongkong, who is to conduct the investigation on behalf of his government, and to whom, with the concurrence of an American missionary member, it was at first propost, and, it is said, will not be able to begin the inquiry for a month or more. There are also understood to be other reasons why the State Department has decided upon an independent investigation, such as France has already made, and such as England will make later. The Department is not prepared to make the charge that the Chinese refuse to lend their support to the American in-vestigation, and to supply an escort to the commission that will conduct it, but say they will probably furnish an official say they will proceedly furnish an olicitation who will co-operate with the American investigation, as in the Ku-Cheng investigation. The investigation is expected to be made by some official now on the Chinese coast. It will probably take a month to reach Cheng-Tu, which is the capital of the interior province of Sze-Chuen, and lies some 1,500 miles from the nearest

DUPLICATE MONEY ORDERS. Trouble with Respect Thereto-New Regulation.

WASHINGTON, D. THE CONNELLSVILLE TROUBLES.

The organizations still exist, and peace seems to be at an end. Labor leaders have been actively at work, and now say that they are prepared to demand a restoration of the siper 100-bushel rate. Yesterday a secret de, egate convention was held in Connellsville. All of the coke workers in the Connellsville region were represented in the fifty-one delegates. Resolutions were adopted demanding an advance to si per 100 bushels of coal mined, and an advance of 11 per cent, on all other kinds of labor, to take effect Monday. CLOUD-BURST IN MARYLAND. Railroad Embankment Washed

Away-Fields Inundated. BALTIMORE, MD., September 6.-A cloud-burst occurred to-day near Glen Falls Station, on the Western Maryland road. The water washed away the embankment and readbed for a considerable bankment and roadbed for a considerable distance, leaving the rails and ties suspended in the air. The west branch of the Patapsco river, which is ordinarily only a few feet wide, became a swirling torrent an eighth of a mile wide, hundating the fields, and ruining crops for several miles along the Patapsco Valley. Pieces of barns and outbuildings were seen floating by. Traffic on the railroad was delayed several hours.

The Fusion Jumble-Various Opinions Expressed-The Populists Would Not Rally-Educational-A Fatal Quarrel-General Notes.

RALEIGH, N. C., September 6 .- (Special.)-The Auditor refuses to issue warrants to cover the expenses of the last meeting of the Arrington Committee, though the latter demanded payment. He has little doubt that they will bring suit before the courts to require the issue. No doubt they will carry their point, The committee is now but an unsavory memory. In an ordinary state of politics the Democrats could use with telling ef-fect the work and behavior of this committee, but this year such things count for A Democrat of prominence, who has

asked many questions of members of his party as to fusion with the Populists, tells me he found only two who favored it. The great mass oppose it most violently, and say they would much prefer to see their party go down than be parties

to see their party go down than be parties to such an alliance. A lawyer here, who is an ardent silverite, and who lives in the country, says the country people are heartily in favor of dropping politics and uniting on the silver issue. He finds this the case wherever he has been in this country. A Republican expresses the belief that the country Populists will finally drift into the Republican party, and the town Populists, of whom, to be sure, there are very few, will go back to the Democratic party.

THEY WOULDN'T RALLY.

A Populist from Wayne said to-day that while no man is better liked or admired than Senator Marion Butler, yet if the latter were to "blow his trumpet" and order the Populists back into the and order the Popullists back into the Democratic ranks they would immediately repudiate him. It is now claimed that all the talk about fusion originated at the silver meeting, which Democrats and Populists held jointly.

No Postponement of Opening, Reports to Contrary Notwithstanding.

ATLANTA, GA., September 6.-The ATLANTA, GA., September 6.—The management of the exposition is surprised to know that reports have gone out to the effect that the opening of the exposition will be postponed. This report is absolutely without foundation. President Collier was seen to-day on the subject, and said:

"The report is groundless, and the exposition will be opened on September 15th if the world stands. The exposition buildings are all finished, and the grounds are practically ready. Only a few more days' work will be necessary

to spread the gravel which is to cover the walks. The steam is on now in the power-plant, and the seventeen engines and all the exhibits in Machinery Hall

and all the exhibits in Machinery Hall will be ready on time. The electric fountain will be playing.

"The exhibits in the government building are already in place. The agricultural building, the fine-arts building, the electricity, the transportation, the machinery, and the manufactures buildings will be all ready for the public. There will be some stragglers, as at all expositions, but the majority of the exhibits will be ready for the opening. There never has been a time in the history of expositions when a more thoroughly complete exposition was thrown open to the public on the opening day.

CHICAGO PRODUCE MARKET.

CHICAGO, ILL., September 6.—In an article in the North American Review Henry Farquhar, Assistant Statistician of the Agricultural Department, estimated the two crops (winter and spring) of wheat at 405,000,000. The article was discovered by some studious individual of the Chicago Board of Trade about noon to-day, and when it had been fully circulated on the floor prices lost what little strength they had. Prices in the Northwest led in influence, and started in a loss of about 1-293-ic. from the close of yesterday. That they did not decline further was due to the fact that extensive sales of "puts" were made yesterday afternoon, and the holders of those privileges were interested in snapping up their profits. Later in the morning the strength which developed in corn led to some cavering of short wheat and a raily resulted, but the weakness mentioned above was the final outcome of the day's variations of tone and feeling.

December wheat opened at from 60 1-4 50c, sold between 50 3-3969 3-4 and 59-5 c., and closed at 59 7-5c.—1-5c. under yester-CHICAGO PRODUCE MARKET.

feeling.

December wheat opened at from 69 1-4
50c., sold between 69 5-8669 3-4 and 59 5-8c., and closed at 59 7-8c.—7-8c. under yesterday. Cash averaged 1-2c. lower, but was fairly steady at the decline.

Corn-Not much interest developed in corn early. Approaching moon, however, offerings became somewhat light, and the demand a little greater. Several of the larger commission-houses assumed a rather aggressive attitude, and, with comparative case, forced the market higher. Shorts of the nervous sort covered, and for a time it seemed as though there would be a raily of some importance. No particular reason could be given for the change of front, and before the close the strength oozed out, prices dropping back to almost yesterday's closing figures.

May corn opened at 29 1-2c., advanced to 39 1-820 1-4c., closed at 23 44923 7-8c.—1-831-4c. higher than yesterday.

The bulk of the sales of cash corn were moderate at yesterday's prices to 1-851-4c. higher, the nominal close being with the advance missing.

Outs—Much of to-day's trade in outsconsisted of covering by shorts, the same houses that were identified with yesterday's operations being again oroming.

nent. A steady, firm feeling was in evidence most of the session. Corn threw some of its surplus strength into this grain. Cash oats ruled 1-4 to 1-2c. higher.

Descriptions—Product was a dead issue grain. Cash oats ruled 1-4 to 1-20, higher. Provisions—Product was a dead issue during most of the session. There was nothing of sufficient value, either in the news or business, at any time, to rouse it from the moribund state into which thas failen. Hoge were weak, and furnished the only plausible excuse for duless. October pork closed 15c, higher. The leading futures ranged as follows:

recently, took his spouse to a Glasgow
theatre on their honeymoon trip.
"I see," said the bridegroom, consulting one of the large posters displayed
outside the theatre before entering, "that
ther's a guid wheen different kind o'
seats. There's pit and stalls and dresscircle and family-circle and gallery.
Which would we hae, Maggie?"
"Weel, Jamie," repiled the buxom bride "Weel, Jamie," replied the buxom bride with a becoming blush, "seein' that we're mairrit noo, maybe it wad be mair proper to sit in the faim'ly circle."
